

Purpose of ANL Quality Assurance Travelers for LCLS Undulators

- **To ensure that undulator assemblies being sent to SLAC are acceptable when they are shipped by the supplier**
- **To ensure that SLAC has the Quality Assurance records for each undulator assembly**

3 Types of Undulator QA Travelers

- 1. Shipments of first article assemblies to SLAC**
- 2. Acceptance of Production Assemblies at the suppliers**
- 3. Shipments of production assemblies to SLAC**

When the Undulator QA Travelers be used

- **When performing acceptance activities (Emil or Issac, Tom or Glen)**
- **Prior to authorizing shipments to SLAC (Tom Barsz, Glen)**

How to Use

- **Download or print from the Inspection section of the ANL LCLS QA web page**
- **Complete and return to LCLS QA Coordinator Tom Barsz**
